DFRS Peer Support Team

For many years the division has trained staff in Peer Support and maintained a small team of trained personnel. The composition of the team has been affected by attrition and retirements that has resulted in a reduction of members, while the need for peer support has steadily increased. The Division is committed to providing support to all its members and recently trained several new members to bolster this important resource. The complete list of Peer Support members is below. If you are ever in need of Peer Support reach out to a member, or call 301-600-7337 (**PEER**), or visit [Behavioral Health Portal - Fire & Rescue Family Support | Frederick County MD - Official Website](#)
